

Newfields' September 25th COVID-19 Mobile Vaccine Clinic FAQ

Updated 8/31/2021

Q: How did the mobile vaccine clinic come to Newfields?

A: The New Hampshire Department of Health and Human Services is partnering with FireMed, LLC on the NH Mobile COVID-19 Vaccine Clinic initiative. Newfields' health officer contacted the state to help set up this mobile vaccine clinic for Saturday September 25 from 5-7pm.

Q: Do I need an appointment, or can I just drop in?

A: There is no need to sign up ahead of time. Vaccines are completely free at the event. No health insurance is needed.

Q: Which vaccines will be available? Can I choose which one I receive?

A: All three FDA authorized vaccines will be available (Pfizer, Moderna and Johnson & Johnson). For patients 12-17, we are only offering Pfizer at this time. For anyone 18+, we intend to have all three available and will offer a choice so long as supply lasts. If people choose to receive either Moderna or Pfizer, they will have to seek out their second round vaccine which can be found at most local pharmacies.

Q: How old do I have to be to receive the COVID-19 vaccine at the 9/25 clinic?

A: Currently, COVID-19 vaccines are only available for those 12 years old and up. Parental consent required for ages 12-17. If things change before 9/25, we will communicate an update.

Q: What do I need to bring with me in order to get vaccinated?

A: Proof of previous vaccination is required, as well as ID at the time of vaccination. If you are between 12-17 years old, a parent/guardian will also need to complete a consent form.

Q: Will boosters or third doses be available?

A: As of today, boosters are not being administered through clinics in NH. This may likely change by the time this clinic occurs. If the state has the framework and guidelines in place, and has given us the authority to administer boosters, this may be an option. More to come...
